This is the most successful doctor in history!

Don't believe me? Consider the timeline of human history:

Humans first appeared (2.4 million years ago)

The most successful doctor in human history is The Doctor Within.

For 99.99% of human history, The Doctor Within was the only doctor available to the human species. This *amazing* doctor allowed our forebears to grow, thrive and expand to the farthest reaches of the globe.

First medical school; Greece, 700 B.C. (Left edge of line)

> Today (Right edge of line)
